Your Spring Guide to Programs and Services at Caledon Public Library

Check Out The Internet With CPL Hotspots

Caledon Public Library has added 50 hotspots to our special collections and adults can now check out the Internet. The wireless hotspot devices offer unlimited access to the Internet anywhere in Canada within Rogers cellphone coverage areas. Devices are available for a one week loan period and free to anyone 18 years and older with a Caledon Public Library card. Up to 15 devices can connect to a hotspot at any time, providing access for an entire household or all employees of a small business.

“This new collection supports CPL’s continued efforts to lessen the impacts of the digital divide and, as per the CPL Strategic Plan, *to explore and adopt new and emerging technologies*,” said Colleen Lipp, CEO and Chief Librarian of Caledon Public Library. “The need for reliable and affordable Internet connectivity across all areas of Caledon has been identified as a priority by Town Council and the Library is excited to support this endeavour.”

Caledon residents can now place requests for hotspots using the Library’s online catalogue and any late returns will be subject to overdue fines. For more information, or to borrow a hotspot, visit the library website or drop in to one of our 6 branches.

With unlimited data, CPL hotspots can provide access for an entire household or all employees of a small business.

#OneBookOneCaledon

Bellvue Square by author Michael Redhill has been chosen for #OneBookOneCaledon. Winner of the 2017 Scotiabank Giller prize, this novel is about a young woman who is a bookstore owner in Toronto's Kensington Market and learns that she has an apparent doppelganger in the market's park, Bellevue Square. One Book One Caledon is a year-long reading event encouraging everyone in Caledon to share the experience of reading the same book, engaging in discussions and attending programs.
